

By Authority.

U. S. Commission,
Honolulu, March 10, 1852.
Sir:—I have the honor to enclose to you a communication received from Lieut. M. F. Maury, Superintendent of the National Observatory at Washington, requesting the concurrence of the Hawaiian Government in efforts made by the British Government and that of the United States, and by individuals in various countries, to establish a system of meteorological observations.

Enclosed also is a printed correspondence on the subject which will fully explain the general objects in view. Not doubting the disposition of His Majesty's Government to assist in obtaining scientific information for the benefit of mankind, I commend the matter to favorable consideration.

I have the honor to be your obedt. servt.

LUTHER SEVERANCE.

R. C. WYLLIE, Esq.,
Minister Foreign Relations.

National Observatory,
Washington, Dec. 31st, 1851.

Sir:—I have the honor of inclosing for your information the accompanying correspondence concerning a universal system of meteorological observations, and to request your official aid thereto.

You will observe that I am instructed to confer with the proper authorities in the matter; and I therefore beg that you will assist me by bringing the subject to the notice of His Majesty's Government, and inviting it to co-operate with the other governments in the matter.

It is desirable to have one or more meteorological stations on each one of the Sandwich Islands; and if such stations should be established, I have no doubt that the missionaries would with pleasure make the requisite observations.

A conference between the governments and men of science concerned, will probably be held during the year 1852, when all the details of the system will be discussed and arranged. The time and place of holding this conference will be duly made known. In its deliberations it is expected that all other civilized governments and people will participate, either by written communication or personal representation; and I take this occasion of requesting that you will invite a similar co-operation on the part of that of the Sandwich Islands.

I have the honor to be,
Sir, &c., &c.,
M. F. MAURY.

Luther Sevrance, Esq.,
U. S. Commissioner to Sandwich Is.

No. 5. Foreign Office, March 16th 1852.

Sir:—I have the honor to acknowledge the receipt of your despatch, No. 26, of the 10th of this month, with its two enclosures requesting the co-operation of the King's Government with those of the United States and Great Britain, in the collection of Meteorological observations, according to a uniform plan recommended.

A communication to a similar effect had been received from Her Majesty's Consul General, which was published in the Polynesian, No. 33, of the 27th Dec. last.

I feel confident that our intelligent Pilots, who are all experienced Navigators, will cheerfully register the Meteorological changes that come within the range of their observation; and I shall remind them of the importance of service that they will thus render to commerce and navigation.

I have the honor to be, Sir,
Your obedt. servt.,
(Signed) R. C. WYLLIE.

Luther Sevrance, Esq.,
U. S. Commissioner, &c., &c., &c.
